8.5" handle	\$104.95

This support harness offers balance and support combined with the heart-shaped front padded chest plate which offers less restriction of front leg and shoulder movement in most dogs. Sides and top of chest strap are padded. The extra strap around the belly helps to stabilize the harness. The person's weight is distributed onto the dog's shoulders to minimize stress to the dog's spine. Choose 3", 6" or 8-1/2" fixed handle. Made of strong, harness leather which softens with time and use.

Available in tan, brown and black
