SERVICE DOG SUPPLIES

How the Wickfunds' journey got started and will also help you . . .

The journey started in 2001 when Wayne Wicklund unexpectedly developed hearing loss. He thought people believed he was rude or discourteous because he was slow or not responding to them. Wayne and his wife, Anne, began to develop various signs to let other people know you cannot hear. This has resulted in the development of over 100 products to help people cope which had never been made before. There is a little something for everyone no matter what your needs or your lifestyle.

At this time a beautiful White German Shepherd dog named Snow came into their world. Wayne trained Snow as his service dog to alert him to strange and unusual sounds, and potentially harmful circumstances. Snow provided Wayne with a feeling of security when he traveled or left home alone. However, this presented a new hurdle when taking Snow into public places. Wayne and Anne have again met and satisfied those many challenges. This catalog offers many products that will fill your service dog needs. The "Service Dog Packages" are a good value to start with, and it will also make your life easier

We hope that you will find our products as helpful as we do in daily use. We have developed or tested each item to insure that they meet the highest standards. Be sure to sign up on our website for our quarterly newsletter **Heads & Tails**. There are many more items in our online store.

In 2019 Wayne was put on oxygen full time. This presented even more challenges which we will help our customers meet in the future. Shadow then alerted to Wayne's breathing needs and oxygen equipment requirements. To find out more about how a dog can help with oxygen needs and to find out your options, See our website, www.mrpaws.com.

We are thrilled to say we have had Snow Shadow for 8 years now. He insists you pay attention to him, he makes you take care of him.

Wayne passed in October 2020 after fighting hard for many years. He was a Vietnam veteran and my hero

Socialization

As the leader of the pack, it's up to you to teach your dog how to be confident yet well-mannered both inside and outside of their home. A puppy who has not been properly socialized to new sights, sounds, animals, and people may grow into a shy or aggressive dog. *Socialization* teaches you how to safely introduce your dog, whether a puppy or an older dog adopted from a shelter, to any new environment. This book teaches you how to identify a properly socialized puppy and includes tips on how to continue socialization at home.
